

OSC/INTELLIMETER®

ISOLATED LINK OPTION BOARD For use on all Intellimeters

Model 21739/21740

DESCRIPTION

The Isolated Link provides an isolated serial communications link between two Intellimeters. The link consists of two current loops (transmit and receive) powered from the master unit (21739). Links of up to 1000 feet using 4 conductor 22 gauge wire may be implemented using these boards.

MOUNTING AND CONNECTIONS
